

Come and find answers to a  
Critical issue the Islam World examined  
in a free program

# BRIDGING THE GAP

Former U.S.Army Lieutenant in the Persian Gulf War, fixed wing flight instructor and helicopter pilot, Tariq Scherfen will show how Islam differs very little from the original teachings of great prophets like Moses or Jesus.

With a power point presentation, he will trace the origin of the Muslim world to give us a clearer picture of the history and origin of this religion about which there is so much misunderstanding and misinterpretation. Unknown to many, our own civilization owes much to the influence of Muslim scholars and men of learning in the medieval Islamic world.
